This is the ultimate guide book for any lighthouse aficionado. It is also the only book currently in print to feature the two new lighthouses built on the east side of Michigan since 1995. This book includes three different types of directions to find each light, a direct route from nearest major intersection, GPS Waypoints, and a scenic route which follows paved roads around the coastline of Michigan with turn by turn directions. There are two pages devoted to each light. Page one has black and white pictures, history of the light and the directions. Page two lists museums, attractions, points of interest, annual fairs, festivals and events of the areas near the light. Also on page two are contact numbers for the listings on page two. In the center of the book is a full color section of lighthouses on the east side of Michigan. Wrapped around the color section are journaling pages to document your trip and visit to each lighthouse. The index makes it easy and fast to find any listing.
