*Reveals how African Americans used cable television as a means of empowerment.*

While previous scholarship on African Americans and the media has largely focused on issues such as stereotypes and program content, *Struggles for Equal Voice* reveals how African Americans have utilized access to cable television production and viewership as a significant step toward achieving empowerment during the post–Civil Rights and Black Power era. In this pioneering study of two metropolitan districts—Boston and Detroit—Yuya Kiuchi paints a rich and fascinating historical account of African Americans working with municipal offices, local politicians, cable service providers, and other interested parties to realize fair African American representation and media ownership. Their success provides a useful lesson of community organizing, image production, education, and grassroots political action that remains relevant and applicable even today.

“...engagingly written, well-researched, and commendably argued. Kiuchi provides a revealing and informative insight into how the mass media in America can overcome its problematic history regarding racial sensitivities, while ultimately achieving positive social outcomes for otherwise disenfranchised minorities. Kiuchi gives us an important book, one that should be read by anyone interested in racial relations and the social history of American television.” — *Journal of Popular Culture*
