**Theatre: Its Art and Craft** Stephen M Archer, Cynthia Gendrich, Woodrow Hood

*Theatre: Its Art and Craft* is an introductory theatre text focusing on theatre practitioners and their processes. Using an accessible tone and a focused exploration of how theatre artists work, the book covers playwrights, directors, actors, designers of sets, costumes, props, lights, sound, and new technology, as well as the varying roles of scholars, critics, and dramaturgs. Appropriate for beginning theatre majors, minors, or non-majors, *Theatre: Its Art and Craft* helps students understand how theatre happens, who makes it, and what they do.

Updated with new statistics, references, and photographs, the sixth edition now features an overhauled design section: the authors have divided the design chapter into two parts: one focused on the tactile elements of design (sets, costumes, props) and the second on the temporal elements (lights, sound, and new technologies).
