Pediatric Clinical Skills, 2e Richard B. Goldbloom OC MD FRCPC Dlitt(Hon)

Gathering a detailed history and making an effective physical examination are the most valuable skills in paediatric practice. This book presents a clear, step-by-step instruction, system by system, on the examination of infants, children, and adolescents. The contributors emphasize the approach to the child as a whole and the text is full of useful tips on how to get the most from history taking and physical examination, what questions to ask, what to glean from simply watching the child, and the order in which to undertake the clinical examination.
