Medicine Moves to the Mall (Center Books on Space, Place, and Time) David Charles Sloane, Beverlie Conant Sloane

The shopping mall seems an unlikely place to go for health care services. Yet, the mall has become home to such services as well as a model for redesigning other health care facilities. In *Medicine Moves to the Mall*, David Charles Sloane and Beverlie Conant Sloane document the historical changes to our health care landscape by exploring the interactions between medicine and place. This unique combination of architectural history and the history of medicine provides a thought-provoking analysis of the geography of the practice of medicine.

The book presents three essays, each accompanied by a gallery of historical and recent photos. The authors discuss the rise of modern hospitals and how they were shaped into scientifically sterile and humanly stark "medical workshops." Starting in the 1970s, hospital facilities were altered in appearance to become more friendly and welcoming. The integration of a shopping mall's spaciousness and open design with technology and scientific innovation served in "humanizing the hospital." Most recently, the accessibility and convenience of shopping center and roadside clinics have invited Americans to go "shopping for health" in the increasingly commercialized medical system.

Medicine Moves to the Mall will appeal to scholars and professionals in fields ranging from health care to cultural geography and from urban studies to architectural history, as well as to readers interested in the shifting status of medicine in American society.

This particular book can be one of one step for you to get success. This reserve offer you information that maybe your friend doesn't recognize, by knowing more than some other make you to be great folks. So , why hesitate? We should have Medicine Moves to the Mall (Center Books on Space, Place, and Time).

April Baker:

As a student exactly feel bored for you to reading. If their teacher asked them to go to the library or make summary for some book, they are complained. Just small students that has reading's heart and soul or real their pastime. They just do what the instructor want, like asked to the library. They go to presently there but nothing reading very seriously. Any students feel that reading through is not important, boring and can't see

colorful pictures on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this Medicine Moves to the Mall (Center Books on Space, Place, and Time) can make you experience more interested to read.
