The Martian: An AfterRead to the Andy Weir Novel Allison Clare Theveny, WeLoveNovels

Can't get enough of Andy Weir's *The Martian*? Dive a little deeper into his world, discover hidden treasures, and hang out with Mark Watney just a little longer with this *AfterRead*.

Warning: This is an independent companion to *The Martian*, meant to enhance your experience of the novel. If you have not yet bought Andy Weir's novel, make sure to purchase it before buying this unofficial *AfterRead*. And if you have already purchased *WeLoveNovels' Sidekick to The Martian*, then do not buy this *AfterRead*.

Mark Watney wasn't the mission commander of Ares 3, a month-long expedition to Mars. He was just the science geek, botany guru, and mechanical engineer: the lowest guy on the totem pole. And the only one who didn't make it back to the ascent vehicle when the storm hit. Left for dead on the surface of a barren planet, Watney must plumb the depths of his considerable ingenuity and resourcefulness to find a way to survive—and to let the people on Earth know he's still alive.

Praised by The Wall Street Journal as “the purest example of real-science sci-fi for many years,” *The Martian* has been on the NYT bestseller list for more than six months. It is Andy Weir's debut novel.

With this *AfterRead*, you'll:

- Uncover some of the book's hidden gems and underlying themes
- Explore possible alternate endings and imagine ideas for a prequel
- Spend some more time with the characters you've come to know and love (or hate), delving deeper into their psyches and hidden motives

AfterReads from *WeLoveNovels* are entertaining and insightful reading companions, filled with delightful commentary and thought-provoking questions. What are readers saying about Allison Clare Theveny's reading companions? "I absolutely loved the way this book broadened the painted picture," "helped me enjoy the novel so much more," "pretty much everything you need to get the most out of the book." Designed to be read side by side with the novels they complement, they'll give you even more reasons to love some of today's best books.
