How to Foster Dogs: From Homeless to Homeward Bound Pat Miller

Pat Miller's *How to Foster Dogs* is the first book on the market to deal specifically with the care and training needs of foster dogs and how the fostering process works when done through a formal arrangement with an organization like a shelter or breed rescue group. Fostering dogs involves caring on a temporary basis for puppies and dogs who for whatever reason cannot be housed with their owners, shelters or breed rescue organizations.

Many shelters now have formal fostering programs for dogs who are too young, unhealthy or have behavioral issues and therefore have to be housed with a foster family or face euthanasia. The book also covers informal fostering situations when families move or have some disruption and a friend or relative agrees to care for the dog temporarily.

You will learn:

About the various organizations that seek the services of foster families for dogs.

What a typical formal arrangement between a shelter and a foster parent involves including expectations of care and training, and the support you can expect from the shelter including covering expenses and other legal issues.

About the most common behavioral issues facing foster dogs and puppies including fear and separation anxiety, a likely undeserved reputation for what may have been perceived as dominance, and irritating but usually solvable problems such as house soiling, chewing and barking.

How to successfully integrate a foster dog into your home if you own other dogs.

While it is possible that you will end up adopting the dog yourself, learn how to prepare to say goodbye to your foster best friend knowing that you have done your best to build a bridge to a better future for him or her.
