The Leadership Identity Journey takes readers on a breathtaking, all-consuming, transformative journey. The invitation is to think of your life as a journey that follows a mythic path. By doing so, new possibilities emerge for thinking about leadership identity and preparation, as well as artistic research and the education field. The perspectives described in this book are supported by school leaders' insights into powerful iconic photographs relative to the five mythic life phases: the human condition, trials in life, human triumph, human transformation, and human crossing, with the addition of leadership as a dimension of the life-journey model. The authors conducted their study using selected photographs framed by the universal mythic framework inspired by mythologist Joseph Campbell.
