The Simon & Schuster Encyclopedia of Animals: A Visual Who's Who of the World's Creatures Philip Whitfield

Authoritative and beautiful, written by expert zoologists and illustrated with nearly two thousand original full-color paintings by the world's finest wildlife artists, *The Simon & Schuster Encyclopedia of Animals* is one of the most extraordinary references ever published. No other guide to the animal world combines such comprehensiveness, consistency of style, and elegance.

This catalogue of the animal world depicts species in detail -- mammals, birds, reptiles, amphibians, and fish -- illustrating each in color, a stunning guide to the staggering diversity of vertebrate animals. Organized by the taxonomic categories of order, family, genus, and species, the text gives an overview of the characteristics shared by animals within each family. When a family's members are similar, the most typical and most interesting are depicted, with more species included for every dramatic visual variation. Each illustrated animal is described in detail, and every entry includes information on size, breeding patterns, feeding habits, intriguing adaptations and behaviors, common and scientific names, conservation status, geographic range, and habitat.

Written by leading scientists in each field, and incorporating innovative graphics -- cladograms -- in to illustrate the evolution and diversity of each class in the animal kingdom, this remarkable book is an essential reference for every home.

Carmela Williams:

Is it you who having spare time after that spend it whole day simply by watching television programs or just telling lies on the bed? Do you need something new? This The Simon & Schuster Encyclopedia of Animals: A Visual Who's Who of the World's Creatures can be the reply, oh how comes? A book you know. You are thus out of date, spending your free time by reading in this fresh era is common not a geek activity. So what these ebooks have than the others?

Tom Baptist:

As a scholar exactly feel bored to reading. If their teacher requested them to go to the library in order to make summary for some e-book, they are complained. Just very little students that has reading's heart and soul or real their pastime. They just do what the trainer want, like asked to the library. They go to there but nothing reading really. Any students feel that reading through is not important, boring as well as can't see colorful pics on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this The Simon & Schuster Encyclopedia of Animals: A Visual Who's Who of the World's Creatures can make you feel more interested to read.
