## Women in Medical Education: An Anthology of Experience (Development)

Women in Medical Education combines personal narratives written by sixteen women medical educators who, as clinicians, basic scientists, administrators, and medical humanities faculty, write of their experiences with students, patients, colleagues, and administrators. Their narratives reflect the issues confronting women in the medical academy today, including working in situations where power relations are embedded and enacted daily in the ethos of the institution; where rigid disciplinary boundaries do not include or invite inquiry into gender, race, ethnicity, or class; where integrating one's personal and work life often seems overwhelming. Yet their stories reflect the success and recognition that women in academic medicine have achieved.

The book includes essays written by Beth Alexander, Janet Bickel, Dale G. Blackstock, Kate H. Brown, Lucy M. Candib, Pamela Charney, Frances Conley, Leah J. Dickstein, Jacalyn Duffin, Deborah Jones, Perri Klass, Mary Mahowald, Marian Gray Secundy, Marjorie S. Sirridge, Rebekah Wang-Cheng, and the editor."
