Do you want to learn some easy magic tricks to show off at your next party? Are you looking for easy magic tricks for kids? Or do you just want to learn a few simple tricks –because that is the way you are?

If any of these are true, Magic Tricks – 50 Simple, Fun and Quick Tricks Book, is what you need. All the tricks that you will learn are just as the title says. They are simple to learn, quick to perform, and fun to do.

Here are just a few that you will learn....

One of the more popular magic tricks is both baffling and entertaining. It is the Impossible (and Impassable) Corks trick. This magic trick baffles just about everyone that it is shown. In fact, you can actually show the people how to do it and they, still, won't be able to do it. This trick has even stumped Ph D's in engineering for hours.

Now if you want something less challenging, read about how to levitate a cup. We guarantee you that as soon as you are done reading the trick you WILL be able to make that cup float. Kids really love this one.

If that trick isn't enough, learn how to "call" a coin flip, correctly, one hundred percent of the time. Again, those around you will never guess how this trick is done either.

The magic tricks in this ebook were purposely selected to accomplish three things. They had to be easy to do, they had to be fun and challenging, and they had to use something that you would find at a party or at a dinner in a fancy restaurant (or have on you, like a deck of cards.) These tricks use bottles, napkins, coins, paper money, straws, bread, utensils and more.

These magic tricks are also rated so that you will know how difficult they will be to learn. Over three quarters of the tricks can actually be learned in 5 minutes or less, but there is only one trick which takes 15 minutes to master. This one trick is one that you will love and will certainly amaze those with you. It involves balancing a coin on the edge of a dollar bill.

What more can we say, if you want to get people laughing and talking at your next party or dinner just learn how to do magic tricks. We are quite sure that the tricks in this book will easily fill that need.

If your children want to learn some easy magic tricks just get this book and give it to them. They can devour it and will be back showing off their new found knowledge in no time at all.

Or, if you just like learning simple tricks, by the time you get to the end of this book you'll probably know how to do more tricks than you can remember.

The bottom line is that learning new tricks is not difficult, given the proper instruction, and the best way to do that is to get this magic tricks book entitled the Magic Tricks – 50 Simple, Fun and Quick Tricks Book.
