Parallel Computing Technologies: 7th International Conference, PaCT 2003, Novosibirsk, Russia, September 15-19, 2003, Proceedings (Lecture Notes in Computer Science)

The PaCT-2003 (Parallel Computing Technologies) conference was a four-day conference held in Nizhni Novgorod on September 15–19, 2003. This was the 7th international conference of the PaCT series, organized in Russia every odd year. The 1st conference, PaCT-91, was held in Novosibirsk (Akademgorodok), September 7–11, 1991. The next PaCT conferences were held in: Obninsk (near Moscow), 30 August–4 September, 1993; St. Petersburg, September 12–15, 1995; Yaroslavl, September 9–12, 1997; Pushkin (near St. Petersburg) September 6–10, 1999; and Akademgorodok (Novosibirsk), September 3–7, 2001. The PaCT proceedings are published by Springer-Verlag in the LNCS series. PaCT-2003 was jointly organized by the Institute of Computational - thematics and Mathematical Geophysics of the Russian Academy of Sciences (Novosibirsk) and the State University of Nizhni Novgorod. The purpose of the conference was to bring together scientists working with theory, architectures, software, hardware and solutions of large-scale problems in order to provide integrated discussions on Parallel Computing Technologies. The conference attracted about 100 participants from around the world. Authors from 23 countries submitted 78 papers. Of those submitted, 38 papers were selected for the conference as regular ones; there were also 4 invited papers. In addition, a number of posters were presented. All the papers were internationally reviewed by at least three referees. As usual a demo session was organized for the participants. Many thanks to our sponsors: the Russian Academy of Sciences, the Russian Fund for Basic Research, the Russian State Committee of Higher Education, IBM and Intel (Intel laboratory in Nizhni Novgorod) for their financial support. The organizers highly appreciate the help of the Association Antenne-Provence (France).

From reader reviews:

Coleen Faircloth:

This book untitled Parallel Computing Technologies: 7th International Conference, PaCT 2003, Novosibirsk, Russia, September 15-19, 2003, Proceedings (Lecture Notes in Computer Science) to be one of several books in which best seller in this year, here is because when you read this publication you can get a lot of benefit in it. You will easily to buy this particular book in the book retail store or you can order it by using online. The publisher of this book sells the e-book too. It makes you easier to read this book, since you can read this book in your Smartphone. So there is no reason for your requirements to past this e-book from your list.

Willard Sarvis:

A lot of people always spent their particular free time to vacation as well as go to the outside with them loved ones or their friend. Do you know? Many a lot of people spent they free time just watching TV, or maybe playing video games all day long. If you need to try to find a new activity here is look different you can read a new book. It is really fun for you. If you enjoy the book you read you can spent the entire day to reading a reserve. The book Parallel Computing Technologies: 7th International Conference, PaCT 2003, Novosibirsk, Russia, September 15-19, 2003, Proceedings (Lecture Notes in Computer Science) it is extremely good to read. There are a lot of people that recommended this book. These folks were enjoying reading this book. In the event you did not have enough space to bring this book you can buy the particular e-book. You can m00re easily to read this book from the smart phone. The price is not to fund but this book offers high quality.

John Rivera:

This Parallel Computing Technologies: 7th International Conference, PaCT 2003, Novosibirsk, Russia, September 15-19, 2003, Proceedings (Lecture Notes in Computer Science) is great book for you because the content that is certainly full of information for you who all always deal with world and still have to make decision every minute. This book reveal it details accurately using great plan word or we can claim no rambling sentences included. So if you are read the idea hurriedly you can have whole details in it. Doesn't mean it only provides straight forward sentences but challenging core information with lovely delivering sentences. Having Parallel Computing Technologies: 7th International Conference, PaCT 2003, Novosibirsk, Russia, September 15-19, 2003, Proceedings (Lecture Notes in Computer Science) in your hand like finding the world in your arm, info in it is not ridiculous one particular. We can say that no guide that offer you world in ten or fifteen moment right but this publication already do that. So , this is good reading book. Heya Mr. and Mrs. busy do you still doubt that will?

Marilyn Calhoun:

Beside this particular Parallel Computing Technologies: 7th International Conference, PaCT 2003, Novosibirsk, Russia, September 15-19, 2003, Proceedings (Lecture Notes in Computer Science) in your phone, it can give you a way to get nearer to the new knowledge or data. The information and the knowledge you might got here is fresh through the oven so don't be worry if you feel like an previous people live in narrow village. It is good thing to have Parallel Computing Technologies: 7th International Conference, PaCT 2003, Novosibirsk, Russia, September 15-19, 2003, Proceedings (Lecture Notes in Computer Science) because this book offers to you readable information. Do you occasionally have book but you seldom get what it's exactly about. Oh come on, that will not happen if you have this within your hand. The Enjoyable set up here cannot be questionable, like treasuring beautiful island. So do you still want to miss the item? Find this book as well as read it from now!
